

**Federal Contract # DTFH61-17D00001 – Task Order #2**

**LONG-TERM BRIDGE PERFORMANCE PROGRAM**

PROGRESS REPORT NO. 22

Report Period: July 1, 2019 – July 31, 2019

Prepared For:

**Federal Highway Administration**

Prepared By:

## **A. Account of work performed in this period**

### **1. Coordination and Meetings Between the Contractor and FHWA LTBP Team**

Dr. Moon had multiple calls and emails with the FHWA team during this period.

PI: 32 hours

### **2. Develop LTBP Program bridge performance strategic research matrix**

Nothing was done during this period.

### **3. Conduct training for all field personnel on LTBP Protocols**

Nothing was done during this period.

### **4. Development of data collection protocols and RABIT-CE operations manual**

Nothing was done during this period.

### **5. Legacy Data Mining data extraction**

Nothing was done during this period.

### **6. Organize, conduct, and participate in LTBP workshops and meetings**

Nothing was done during this period.

### **7. Publications, website, communications, and technical assistance**

The Rutgers team prepared the electronic version of the monthly progress report and submitted it to FHWA. Moreover, the Rutgers team developed a MS Project file showing the project milestone and submitted it to FHWA.

During this period, Dr. Frank Moon worked with Dr. Babanejad on the preparation of the NDT data for the FHWA team

During this month, Dr. Babanejad continued worked on enhancing the quality of NDT data and XML files. Details is explained in the Subcontractors progress report. An hourly student from Rutgers assisted Dr. Babanejad with this task.

PI: 50 hours

Project Engineer: 95.50 hours

Technician: 10 hours

Project Support: 8 hours

## **B. Work to be accomplished during the next period**

### **1. Coordination and Meetings Between the Contractor and FHWA LTBP Team**

The Rutgers team will reach out to FHWA to set up a meeting for the month of August.

### **2. Develop LTBP Program bridge performance strategic research matrix**

No work is planned under this task for the next reporting period.

### **3. Conduct training for all field personnel on LTBP Protocols**

No work is planned under this task for the next reporting period.

### **4. Development of data collection protocols and RABIT-CE operations manual**

No work is planned under this task for the next reporting period.

### **5. Legacy Data Mining data extraction**

No work is planned under this task for the next reporting period.

### **6. Organize, conduct, and participate in LTBP workshops and meetings**

No work is planned under this task for the next reporting period.

### **7. Publications, website, communications, and technical assistance**

The Rutgers team will prepare the electronic version of the monthly progress report and will submit it to FHWA. Moreover, the Rutgers team will submit the updated MS Project file to FHWA.

**C. Problems/Recommended Solutions**

None.

#### **D. How the results of the work performed supports one or more of the FHWA, DOT and LTBP Goals**

The following is a summary of how the work performed on the primary tasks of this task order contribute to meeting the FHWA, DOT, and LTBP program goals.

##### **Task 2 - Develop LTBP Program bridge performance strategic research matrix**

Fundamentally, the SRMs aim to link the LTBP program to the larger research community. By placing the LTBP efforts in this larger context, the program will be able to identify potential synergies and collaborative opportunities as well as any overlaps that may exist. This will both increase the cost effectiveness of the program as well as the program's impact on bridge engineering practice through clearly showing how the LTBP program contributes to the overall bridge performance research landscape.

##### **Task 3 - Conduct training for all field personnel on LTBP Protocols**

At the heart of the LTBP program's data collection effort is the requirement that data be obtained in a consistent and reliable manner across the breadth of the program. Variations in collection techniques or unreliable practices would pollute the data streams and greatly limit the ability of the program to meet its goal of improving our understanding of long-term bridge performance. Activities under this task aim to ensure that the data collection efforts of the LTBP program are executed by teams with the required expertise to obtain consistent and reliable data.

##### **Task 4 - Development of data collection protocols and RABIT-CE operations manual**

Similar to the training work being conducted under Task 3, this task is also involved in ensuring consistent and reliable data collection throughout the program. Specifically, this task will develop additional protocols and operations manuals that specify best-practice approaches for data collection.

##### **Task 5 - Legacy Data Mining data extraction**

In addition to ensuring consistent and reliable data collection efforts, the overarching goal of the program is also dependent upon the completeness of the data collection efforts. This task contributes to this through the collection of available legacy data. This data not only provides a means to ensure field data collection efforts are carried out efficiently (i.e. on bridges best suited to meeting the program's goals) but also provides context to the data to help explain observed trends and correlations (and thus further our understanding of long-term bridge performance).

#### **E. Purchases and Rentals**

Nothing was purchased during this period.

**F. Travel Details for Reporting Period**

None.

**G. Current and Cumulative Expenditures (cost shown includes benefits and overhead)**

<b>Institution</b>	<b>Current Expenditures 7/1/2019 – 7/31/2019</b>	<b>Cumulative Expenditures 10/1/2017 – 7/31/2019</b>
Rutgers, the State University of New Jersey	\$ 23,566.00	\$ 917,447.59
Bridge Intelligence LLC	-	\$ 94,904.39
Pennoni Associates	-	\$ 34,206.00
Infratek Solutions	-	\$ 25,244.00
New Jersey Institute of Technology	-	\$ 28,237.18
WJE	\$ 12,415.00	\$ 58,316.50

## **H. Subcontractor's Progress Report**

**Progress Report # 5**  
**07/01/2019 - 07/31/2019**  
**Subaward No: 0863**  
**Principal Investigator: Saeed Babanajad**  
**Contract DTFH6117D00001 (T.O. 2 - Task 7)**

August 10, 2019

Franklin Moon, Ph.D  
Center for Advanced Infrastructure and Transportation (CAIT)  
Rutgers, The State University of New Jersey  
100 Brett Road  
Piscataway, NJ 08854-8058  
franklin.moon@rutgers.edu

Re: Progress Report # 5 (07/01/2019 - 07/31/2019)

## A. Accomplishments/Work Performed

During this period, WJE (Dr. Babanajad) performed the necessary steps in order to complete the QA/QC for the NDE data collected through the LTBP Program. He was frequently in contact with Rutgers employees (Dr. Moon, Mr. Mott, Christian Vargas), Mr. Parvardeh (Bridge Intelligent LLC), and FHWA (Dr. Frank Jalinoos) to discuss the details of collected data and any potential troubleshooting. The focus was more on addressing the problematic issues with the NDE Stack and XSD files. Dr. Babanajad prepared a preliminary NDE Stacks delivered those to the FHWA.

## B. Work Anticipated During the Next Period

WJE (Dr. Babanajad) will continue the similar activities in order facilitate the progress of project. He would also submit part of the completed data (NDE XSD files) to FHWA. He would be in continuous contact with FHWA for delivering the data.

## C. Changes /Problems

None.

## D. Participants & Charged Level of Efforts

The table summarizes the participants and charged level of efforts.

**Headquarters & Laboratories**—Northbrook, Illinois

Atlanta | Austin | Boston | Chicago | Cleveland | Dallas | Denver | Detroit | Honolulu | Houston | Indianapolis | Los Angeles | Minneapolis | New Haven  
New York | Philadelphia | Pittsburgh | Portland | Princeton | Raleigh | San Antonio | San Francisco | Seattle | South Florida | Washington, DC

Personnel Name	Role/Contribution	Total Hours	Billed Cost
Saeed Babanajad	Project Manager	95.5	\$154.3/hour

## E. Purchases and Rentals

Per attached, WJE purchased a business GSuite account to get access to the data shared by Rutgers University and purchased a new battery charger for the LTBP laptop.

## F. Travel

None.

## G. Charges

Institution	Current Expenditures 07/01/2019 – 07/31/2019		Cumulative Expenditures 02/01/2018 – 07/31/2019	
	Labor	Other Costs	Labor	Other Costs
WJE	\$14,735.65	\$32.00	\$69,874.76	\$136.05

Sincerely,

**WISS, JANNEY, ELSTNER ASSOCIATES, INC.**

Saeed Babanajad
